10 seconds
invoice collection was a very critical
collection for my application
Subtitles/closed captions (c)
1:05 / 4:33

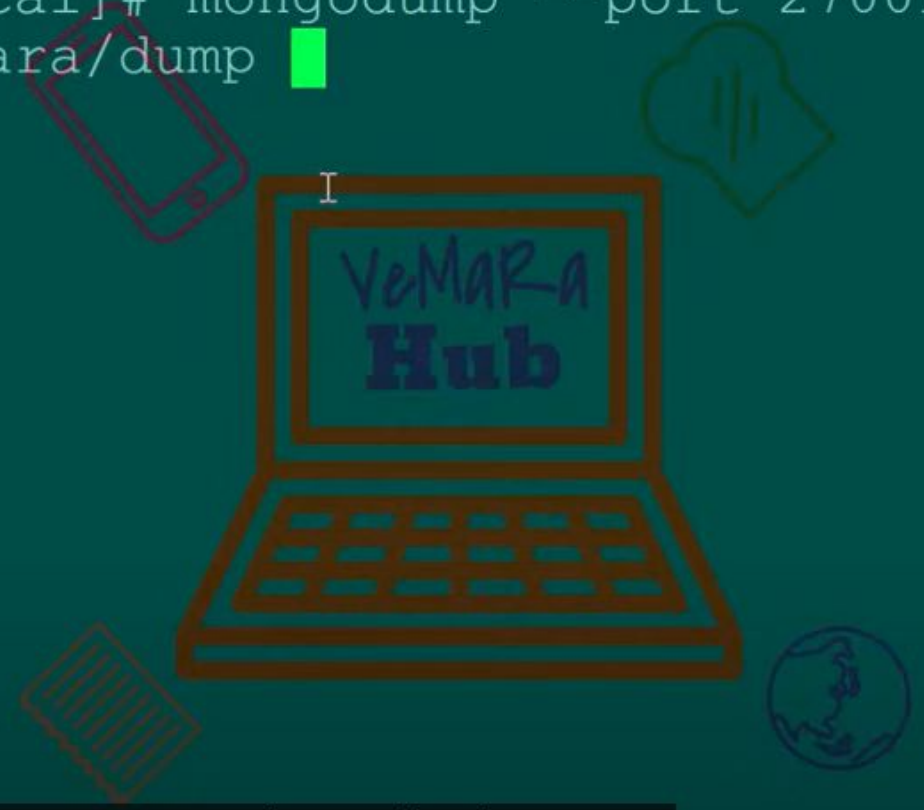
```
[root@localhost local]#
[root@localhost local]# mongodump --port 27001 -d local -c oplog.
rs --out /home/vemara/dump
```

dump in version 3.6 and 4.0
when we dump the oplog collection

Subtitles/closed captions (c)

2:05 / 4:33

```
[root@localhost local]#
[root@localhost local]# mongodump --port 27001 -d local -c oplog.
rs --out /home/vemara/dump
```

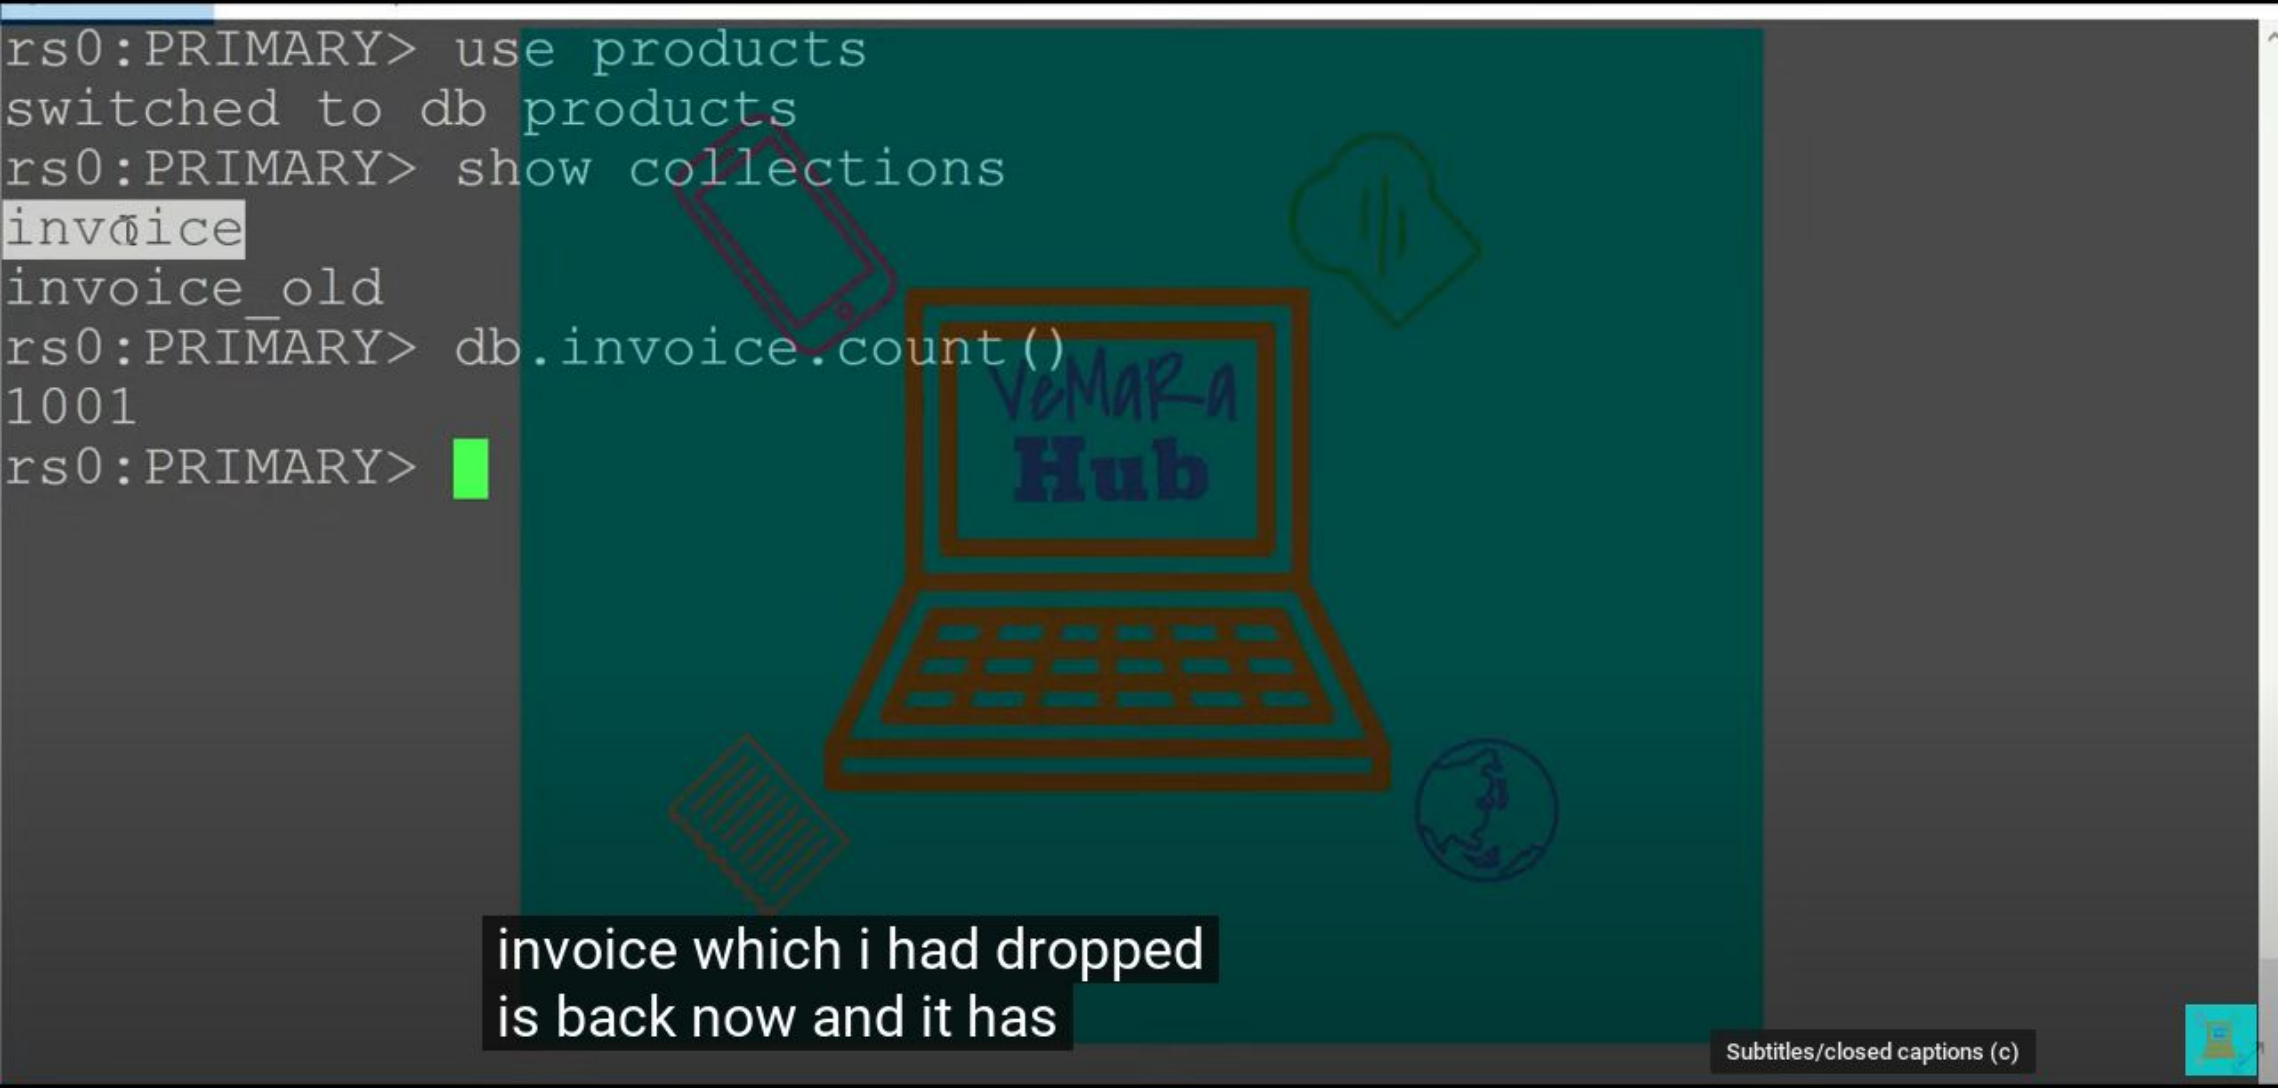


10 seconds

so you can see the only that one document

Subtitles/closed captions (c)

3:05 / 4:33



rs0:PRIMARY> use products
switched to db products
